MONEY, BONDS AND STOCKS.

A Duli Market in New York, Only One Stock Showing Any Activity.

NEW YORK, Nov. 8 .- Money on call was easy at 2 224, the last losp being made at 2, closing offered at 2.

Prime mercantile paper, 47 @61. Sterling exchange was dull but steady at

\$4.844 for 60-day bills and \$4.874 for demand. The total sales of stocks to-day were 195,-041 shares, including the following: Delaware, Lackawanns & Western, 6,700; Erie, 5,800; Lake Shore, 3.960; Missouri Pacific, 7,050; Northwestern, 5,000; Northern Pacific, preferred, 5,000; Reading, do, 6,340; Richmond & West Point, 12,475; St. Paul, 9,160; Union Pacifie, 11,200; Western Union, 5,180.

The stock market to-day was dull, except for one stock, but it was weak and declining in the forenoon, and the losses made during that time were never recovered. The prices at the close were, in a great majority of the list, materially lower than those of last evening. There were a number of disquieting advices received during the day, such as the disruption of the Western Passenger Association, and the trouble with the coal diggers on the Paphandle, but the principal cause of the demoralization was the unusually heavy sales for foreign account, which were kept up almost throughout the day. The reason assigned for this outpouring of "long" stocks was that the foreigners were distrustful that the new administration might make such changes as would retard business, and so burt the values of securities. There was the usual amount of short stock put out by the "bears" and traders. but this exercised no special influence upon the course of prices. The coal slocks, and especially Reading, were the leaders in the decline, and the dealings in the stock mentioned assumed large proportions, and furnished nearly balf the business done. The trunk lines were beavy, and in some cases decidedly weak on the recent reductions, and the refusal of the Pennsylvania to advance rates had a marked influence. They were followed by the Southern stocks, and notwithstanding the favorable outlook for the Southwestern lines both Atchison and Missouri Pacific were prominent for the declines established. Cotton Oil was a festure of the day. being, after the first decline, remarkably strong, and on a large business closed a fraction higher. Union Pacific was prominent among the activ. stocks, but its movements were small and its price was well maintained throughout, and Tennessee Coal was conspicuous during the early trading by an advance of over a point, though the greater portion of the advance was afterward lost. The rest of the list were duil, and call for no comment. The opening was moderately active, but, in marked contrast to that of yesterday, was decidedly weak, and the losses from last evening's closing figures extended to 4 per cent. The market remained almost motionless until toward 11 o'clock, when there was a renewal of the weakness and prices moved off rapidly, and Canada Southern, Missouri Pacific and Reading became specially prominent for the declines established. A luil in the market was accompanied by a firmer tone for the rest of the forenoon, but later the market was attacked with vigor and the lowest prices of the day generally were reached abo .: 1 P. M. Duliness again intervened and prices made slight recoveries, but the market continued without feature until the close, which was dult and steady to firm at but slight gains over the lowest figures reached. The volume of business shows some increase over that of yesterday. The active stock are almost invariably lower to-night, and Reading lost 14: Atchison, 14; Canada Southera and Norfolk & Western preferred, 1; each; Missouri Pacific, 1 per cent

The railroad bond market was somewhat more active to-day, but, as to the shar, list, this was entirely due to the animation shown in the Reading issues, and the second incomes contributed \$177,000 to the day's total of \$1,139,000. There was no other feature to the dealings, and while there was a firm tone in the forenoon, and some advances were made, this disappeared later, and the closing figures show irregular changes, which are generally for small fractions. Government bonds were dull and steady. State bonds were entirely neglected. Closing

CHICAGO, Nov. 8 .- A fair business was transacted in wheat, and a bigher range of prices was established, but the advance was again lost. The opening was | als higher, and December advanced an additional le, and May le; then ruled irregular. The early advance was due largely to "shorts" covering, who were influenced in their action by the reported taking of wheat yesterday and to-day in New York for export, the reports fixing the quantity as high as 200,000 bushels for both days. It was claimed that the wheat was bought for shipment to Lisbon, and was being taken by fruit-carrying vessels at low rates of freight. A denial of the above report at last said that there had been no wheat taken to-day and caused the market to react somewhat. Corn opened at to advance over the closing prices of yesterday, and gradually advanced 1014c, reacted to, and closed | @ to higher than yesterday. The feeling developed was stronger, especially on the near futures, a very good demand existing from "shorts," who were somewhat nervous. There was an improved demand for oats. In May delivery trade was quite brisk, with considerable demand from "shorts." under which to higher range of prices was established. Near futures were also accorded rather more attention than for some days past, with the result of 10 to advance, but before the close the speculative market became weaker and reacted. There was more trading in mess pork, but the feeling was somewhat unsettled, and prices ruled some what irregular, though within a comparatively narrow range. Offerings were fair, and the demand was moderately active. Purchases were free early, partly credited to a prominent local operator, and prices were advanced 10 2 12ic. Later, the feeling was weaker, and prices settled back again 10@124c, and closed comparatively steady. A firmer feeling prevailed in the lard market, but trading was only moderate. Offerings were not very large, and the demand was only fair. Prices were advanced 5@74c, per 100 lbs. during the early part of the session, but receded again 21 25c later, and the market closed rather quiet. Quite a good speculative demand prevailed for short-rib sides, and the offerings were moderate. The feeling was stronger, and prices were advanced 21 @5c per 100 lbs, and the market closed steady. The leading futures ranged as follows:

INDIANAPOLIS MARKETS.

Election Excitement Dying Out and Business Taking on a More Active Character. INDIANAPOLIS, Nov. 8.

In most departments to-day trade showed more activity than for several days past and a disposition prevails to roll up sleeves and push business the remaining weeks of the year. A belief prevails that there is to be a large holiday trade as the outlook is for an easy money market. Dealers in dry goods and fancy notions are well stocked up and are in shape to compete successfully with competing markets which take any share of the trade. Grocers had a fairly busy day. In prices there were no changes, but both coffees and sugars ruled steady but not especially firm. An upward or downward movement in prices in either of these staples would not be a surprise. The wool market shows a little improvement in demand but no improvement in prices. The bide market is active, and prices carry a firmer tone. The produce markets are moderately active at unchanged prices. Receipts of poultry continue large, and prices rule very weak. Butter is in better supply, and prices are a little easier, while eggs are very firm on a brisk demand and light receipts. The shipments of apples and potatoes by railroad in here are very large, and prices rule weak. There is a good deal of complaint of apples decaying fast. The flour market still wears a sluggish look and prices are unsettled. Other markets are feat-GRAIN.

There was a little more life to the local market to-day. Wheat in good demand for shipping purposes, millers touching it lightly. In sympathy with other markets, prices were higher. No 2 red quotable at \$1.06 to \$1.08; No. 3 red. 99e to \$1.03; rejected, from 75 to 85 cents. Corn unsettled; demand light; old No. 1 quotable at 42e; No. 2 at 42c; prices of other grades nominal. Oats firm. No. 2 white quotable at 48te; No. 3 white, 26ic; No. 2 mixed, 23i; rejected, 22c Hay firm; choice timothy selling at \$14; No. 1, \$13.75; No. 2, \$12.

Kingston (N. Y.) Freeman-Many decades ago an eccentric individual named W. D. Whittaker owned and occupied an extensive farm on the Saugerties road. Whittaker's odd way's and peculiar habits were the talk of the countryside, and they are still dilated upon by his descendants. One of the old gentleman's peculiarities was to catch turtles and write his name and the date of their capture on their shell.

A day or two ago Michael Jerson saw a turtle erawling feebly across one of his lots. He picked it up and discovored the following inscription on its back:

W. D. WHITTAKER, Aug. 10, 1771.

Judging by the date, the turtle is over one hundred years of age, and its appearance indicates that it has lived long in the land. Its head and neck are gray and wrinkled, and its legs are covered with thick scales. Its caudal appendage is entirely torn away and portions of its shell are crumbling as though from age. Mr. Jerson's ancient "find" has attracted curlosity.

Speeches That Wales Makes.

London World. There is a report that Mr. Murray is going shortly to publish the Prince of Wales's speeches. He has now spoken in public for a quarter of a century, and many people believe that his speeches are written for him, the Prince only putting the finishing touches himself. It is obvious he must have an immense deal of assistance, for the subjects on which he speaks are so varied it would be next to impossible for him to prepare the materials for himself. It will be interesting to see if there is any natural development in them, or if they snow the work of different hands. I believe there has been no question on which the Prince of Wales has had stronger views than on that of Ireland, and his opinions on the desirability of having a royal residence there are perfectly well known. But his feelings on these matters were not shared in higher quarters, and, to the Prince's greet credit, he has never permitted his opinions, if they were in opposition to those of the Queen, to become known. He is the first heir-apparent in England who has never allowed whatever difference may have arisen between him and the crown to become public gossip.

THE sign over the store read as follows: "Books, Stationery, Drugs & Medicines." He went in and asked for a copy of "Croup in Children" and the clerk handed him a bottle of Dr. Bull's Cough Syrup.

When Beby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria

THE New Fruit Cure

PAIN AND DISTRESS AFTER EATING AND HEADACHE DUE TO INDIGESTION. It is now a matter of history that science has produced from the South American Papah fruit a new and remarkable digestive drug called Papoid, now conveniently prepared for use in the form of Papoid Tablets.

Journals

Chambers' Encyclopædia.—"Papah, a tropicai tree, bears fruit the shape of a small melon, the juice of which has the singular property of rendering the toughest meat tender."

The Popular Science Monthly, Feb. 1888, refers to the digestive properties of the new drug.

The St. Louis Medicai Brief, June 1st, 1883, reports six cases of chronic dyspepsia cured by Papoid Tablets where all other remedies had failed.

The British Medical Journal, London, recently reported eleven cases of the same nature cured.

The Philadelphia Medical Register.—"Headache cured in five minutes." Many other Medical Journals recommend
